In 1975, the Missouri Corp. of Engineers decided to flood the Washington and Crawford County areas for the proposed Meramec Lake Project. This lake project was unnecessary, contrived by the wealthy, so they would have another lake to play with. However, in the process of creating this lake, the law would require the Missouri Corp. of Engineers to remove all known cemeteries within the lake proposed area.

This is the story of that project and how concerned citizens were able to defeat the project.

THE PROPOSED CRIME...

In 1975, the Missouri Corp. of Engineers decided to flood the Washington and Crawford County areas for the proposed Meramec Lake Project. This lake project was unnecessary, contrived by the wealthy, so they would have another lake to play with. However, in the process of creating this lake, the law would require the Missouri Corp. of Engineers to remove all known cemeteries within the lake proposed area.

The Corp. under law had to 1st take a name only census of all the cemeteries that were going to be flooded, 2nd record all known inhabitants within those cemeteries, including visual observations and reported gravesites, 3rd publish those cemeteries and inhabitants in the local newspapers.

The Corp. contracted with Alfred Roy and Ethel Marie (**DAVIS**) Immekus as their regional representatives. After hearing of this proposed atrocity, I contacted Alfred and Ethel and obtained a list of cemeteries including maps of all the affected cemeteries.

Alfred and Ethel were of immense help to me since no one else seemed to care. All these cemeteries were going to be washed away when flooded, so, in compliance with the law, the Corp. published in the various local newspapers, notices advising family, friends and interested parties to remove their family from those cemeteries.

On the map were the locations and the name of the cemeteries and names of alleged inhabitants. There were no dates next to the names. I began a full name and full date census of each and every cemetery...all 35 of them on the list. Hoping to finish with them all before the flooding began.

As it turned out, the local citizenry did not want their hills and valley's flooded into Meramec Lake, so they worked hard to defeat this project and after several years, they were successful.

However, the Corp of Engineers did not sell back the land to the people, they had purchased for the lake project, but kept all the land they had acquired within the possession of the government. The Corp of Engineers increased the boundaries of the Meramec State Park with land they bought for the proposed lake project.

During those years, I drove from St. Peters, Missouri where I lived, out to those cemeteries and recorded what I saw on those headstones. Many of those graves are now lost except for my notes.

However, it took several years to defeat this proposal and not knowing if we were going to be successful, I decided, using the maps, I personally saw the headstones myself in 1985.

However, it appears when the Corp published their intentions to flood these cemeteries, several family members moved their loved one's headstones to different cemeteries. Whether or not they removed the remains is unknown, however, my listings are the original resting place for these ancestors and since the Meramec Lake Project never took place, it is probably where many of our ancestors are still buried.

NEWSPAPER NOTICE...

According to state law, when something of this undertaking is proposed, they must publish the newspaper notices in several newspapers and on several consecutive dates. It is unknown, which newspaper this notice was in but this is an example.

St. Louis, Missouri, 4 September 1975 -- The U. S. Army Engineer District, St. Louis, is in the process of locating and cataloging cemeteries within the limits of the proposed Meramec Park Lake Project. Many cemeteries have already been located and investigated. A great deal of assistance in locating these cemeteries has been provided by the residents of the area, and this help is greatly appreciated. However, further efforts are being made to assure that all existing cemeteries which may be affected by operations of the reservoir project have been investigated. All existing cemeteries, which have been located to date, are listed below and indicated on the accompanying project map. An asterisk next to the name of a cemetery in the list indicates that the cemetery is located outside of the project boundary and, thus, will not be affected by the project. Detailed topographic and land surveys have been completed for each of these cemeteries to determine the elevation and exact locations of each. Only those cemeteries located within the project limits will be affected by the project and possibly require remedial measures. Depending upon the location and elevation of the cemetery, remedial measures include raising the cemetery, allowing the cemetery to remain as is, or relocating the cemetery to either an existing cemetery or a new cemetery.

Anyone having information concerning the location of cemeteries or graves within the project boundaries, which are not listed below, is requested to forward such information to the Corps of engineers. Such information should be forwarded to either of the following addresses: U. S. Army Engineer District, 210 North 12th

St., St. Louis, Mo. 63101, Attention RE-A, phone number (314) 268-2404; or, Meramec Park Lake Real Estate Office, 234 W. Main St., Sullivan, Mo. 63080, phone number (314) 468-4110. Persons supplying information should include their address and/or phone number when responding so they may be contacted if ad-

ditional clarification is needed.

Once all the cemeteries and graves within the project limits have been located and surveyed, a cemetery relocation plan will be drawn up and coordinated with all known next-of-kin of persons interred in affected cemeteries. Since it is imperative that all ceme-

teries within the project limits be located, any additional information in this regard would be greatly appreciated.

The following list enumerates the cemeteries located to date. The reference numbers correspond to the numbers in circles on the accompanying map to aid in pinpointing the cemeteries.

many things that must be tried, and many houses he must try to live in. After two years of searching for the right job and the right home, both have been accomplished.

I'm not too sure about the job and what it consists of but I do know that the right home has been found. It is a duplex, making a very good invest-

The cemeteries at the date of the notice 4 September 1975 amounted to 34 however, as time progressed, additional cemeteries were discovered. The numbers correspond to the location of those cemeteries on following maps.

OR HOW GREED ALMOST DESTROYED THOUSANDS OF OUR ANCESTOR'S GRAVESITES

BY Floyd Thomas Pratt F.H.C., M.A.G.I. 2015

NOTES FROM THE CEMETERIES I SAW IN NUMERICAL ORDER

The following are my original census notes concerning the above cemeteries. Should be noted as you have probably already observed, I did not get to visit all the cemeteries before the project was defeated and cancelled. After it was defeated, I stopped visiting those cemeteries I had no ancestral interest. Therefore, these notes are for only those I visited.

[# 1] MCINTOSH CEMETERY

The McIntosh Cemetery is located in Johnson Township, Washington County, Missouri at Range 2 West, Township 40 North, Section 13, 5th PM, which is now in the Meramec State Park.

Original Corps of Engineers newspaper map outlining the cemeteries due for removal in the event of the Meramec Lake Project. Number 1 is the McIntosh Cemetery.

The handwritten circle stating McIntosh is the location I found the cemetery. It is off a dirt road from Highway 185, in Section 13, Township 40 North, Range 2 West of the 5th PM, in Johnson Township, Washington County, Missouri.

The community in the area was known as Hulsey.

Emails Concerning the McIntosh Cemetery, Johnson Township, Washington County, Missouri
By *Floyd Thomas Pratt F.H.C., M.A.G.I.* 3 July 2010

Email to Larry Flesher, Missouri State Coordinator for Missouri Gen-Web 3 July 2010

Larry, you and I may have corresponded in the past, but I wanted to thank you and your staff for a great job they are doing on the Washington County Cemetery pages.

Back in 1975 when I began my family history research you probably remember the Corps of Engineers were going to flood the Crawford, Franklin and Washington Counties to put in a dam. Luckily we defeated the project so that all those cemeteries would not be lost.

The county coordinators; Alfred and Ethel (**DAVIS**) Immekus responsible for mapping those cemeteries gave me maps and locations of all the cemeteries that were to be flooded. I went to many of them and did a census of the entire cemetery and still have my notes.

BY Floyd Thomas Pratt F.H.C., M.A.G.I. 2015

In fact, I was looking through my notes today and noticed a cemetery you do not have listed on your Washington County website. <http://www.mogenweb.org/washington/cemetery/wccem.html>

The name of the cemetery is the McIntosh Cemetery located in the northern most section of Johnson Twp near the Franklin County border. I wanted to know if you wanted me to submit this cemetery census to you and how, in what form you would like it sent. I have Word, and can set it up as a .doc or rich text file .rtf or a pdf file.

I need to know how you want the records laid out, in what order. There are approximately 17 stones that I could read back then.

Thanks, once again great work. I have one suggestion...arrange the cemeteries by political townships, alphabetical doesn't mean much unless you already know where your ancestor was buried, but when you are looking in a specific township, where they lived, having all the cemeteries in that area would be immensely helpful.

Thank you,

Floyd Thomas Pratt, F.H.C., M.A.G.I.

Floyd- WOW! Thank you so very much for contributing!

My staff, also known as my wife, also says "you are welcome" <grin>

Yes Yes Yes - I will accept your notes in any form you choose (even for cemeteries I already have, because we constantly try to update and correct the information. I'll even accept those in Crawford and Franklin counties and see that they get posted, even though they are outside my "venue".

I put all the burial records in a database, so the format is not important. Also, your suggestion about political township is great! I'll make that happen with a couple of weeks or so. Thank you! Larry

Email to Larry Flesher, Missouri State Coordinator for Missouri Gen-Web 3 July 2010

Larry, That's great. Do you have Microsoft Word capabilities?

I want to send you a map of the original Corp. showing where this cemetery is.

If you don't have Word I will do a .pdf. Floyd

PS: I will go through my files as see what other cemeteries you need.

I have Word. Larry

Email to Larry Flesher, Missouri State Coordinator for Missouri Gen-Web 3 July 2010

Very good. I will set it up for. doc. I will work on it tonight. I know most of those people; in fact I have 29000 people in my tree and probably know more about anyone in the Crawford, Washington and Franklin counties of Missouri.

I was updating a project for Margaret Susan (**LAHMANN**) Wagner and her family when I updated her Lahmann and Pope lines and because of my extensive database that has taken me 35 years to compile, I was able to connect to various families, which brought me to this cemetery.

It might be good if I sent you all the cemeteries I had visited in 1975-1983 so you can compare them with your existing records.

Anyway, I will process this information with what I have discovered and send it to you as soon as possible.

Thanks, Floyd

Larry, enclosed is my report on the McIntosh Cemetery. Hope you can work with it. Floyd

Email to Larry Flesher, Missouri State Coordinator for Missouri Gen-Web 6 July 2010

Larry, Did you get the McIntosh Cemetery Report? You didn't acknowledge that you had received it?

Floyd

Email from Larry Flesher, Missouri State Coordinator for Missouri Gen-Web 7 July 2010

Floyd- I'm sorry - yes I did receive it, and it is posted:

<http://washington.mogenweb.org/cemetery/mcintosh.html>

Not only that, but I have received two small updates to the records you sent, and have incorporated them. One is that the cemetery is also known as the Jackson Cemetery. Also, this morning I tried to go to the cemetery site, but found a locked gate - it may belong to the State Park, but will have to check later. Thank you again! Larry

On Margaret "Maggie" Isabelle (**MCINTOSH**) Pope Lynch Stroup's death certificate they had put down that she was buried in the Jackson cemetery. (see attachment)

However, William Jackson was the informant on her death certificate and evidently he felt that one name of Jackson in the whole cemetery warranted calling the cemetery "Jackson Cemetery" when in reality there are many more McIntosh's, Pope's and Lohmanns than there are Jacksons. Floyd

PS: Larry, just went to the website of McIntosh Cemetery, wanted to tell you that you did a terrific job. Looks great. Thanks. *Floyd Thomas Pratt F.H.C., M.A.G.I.*

HAMILTON CEMETERY (NOT LISTED)

Even though the corp. did not originally list this cemetery, since it was right across the road on the opposite hill from the Blanton Cemetery it should have been listed.

The following census for Hardy Cemetery was compiled by Mrs. Leona C. Heitsch, Bourbon, Missouri in her May 1990 book "Washington County, Missouri Cemetery Book".

This completes the cemeteries I saw during 1975-1983. I mentioned a cemetery book by Mrs. Leona C. Heitsch, Bourbon, Missouri titled "Washington County, Missouri Cemetery Book". This was more of a 22-page pamphlet, however, compacted into a small space she has done a wonderful job compiling cemeteries in Washington County, Missouri.

I plan on converting her research into a book and will be posting it on my website. If you need this information before it is posted email me at floydpratt59@gmail.com and it will only take me a few hours to get it posted.

A Little Something About Your Author.....

Floyd Thomas Pratt F.H.C., M.A.G.I.

At the age of 19, Mr. Pratt embarked on a career in law enforcement. This experience gave him training in detective and investigative skills. Little did Mr. Pratt know, how useful these skills would be in the field of genealogy.

Floyd started his family research career in 1975 after becoming a member of the Church of Jesus Christ of Latter Day Saints. His first calling as a new member was to serve in the newly created genealogical department or known today as the Family History Center in the Springfield, Missouri ward. This two-year calling gave Mr. Pratt a tremendous amount of experience helping others to research their families.

In fact, he felt family research came easy and required little effort on his part. In reality, years of reading and studying increased his expertise and he made it look easy to others. Over the course of several years, Mr. Pratt was asked by his church to instruct several family history courses. This experience established a deep profound love for family and ancestors. It was not uncommon for Mr. Pratt to spend 4 to 8 hours a day researching and compiling family histories in addition to his duties, as an entrepreneur in the insurance business.

The first major achievement for Mr. Pratt was a breakthrough on his Pratt family back to the early 1800's. Due to confusion with Pratt ancestors and not satisfied with just the direct line research, Mr. Pratt branched out to research all connected lines and allied families.

This dedication led to 50,000 individuals in his database and has achieved expert status for Mr. Pratt on the families of middle and eastern Missouri, eastern and western Tennessee and central North Carolina.

Concerning Mr. Pratt's style of research, he is a strong supporter of the "hands on" approach. When he took family vacations, they usually went to libraries, cemeteries, courthouses, National Archive centers, and visited family members in various states. He attended family reunions and obtained his material from the actual sources when possible.

Being a researcher of the highest degree, in 1991, Mr. Pratt created Pratt Publications.

He began to offer to the public, a series of books titled, Pratt Progenitor Papers. This series of volumes are a collection of legal documents, stories, pictures and historical presentations concerning the families of Missouri, Tennessee and North Carolina.

The first three Volumes were released to the public in 1991 and were issued to 18 different libraries including the Library of Congress and the St. Louis Public Library. The next 11 volumes were sent to the Salt Lake Genealogical Library with 60 volumes scheduled for publication.

In 1996, Mr. Pratt created the Genealogical Institute to further the education of serious researchers.

A Little Something About Your Author.....

The **Genealogical Institute** offers a series of educational materials to teach and instruct the novice as well as advanced researchers, procedures Mr. Pratt has tried and tested to be of great value in family history research. These courses offer “a hands on” curriculum designed to instruct in investigative, deductive reasoning and logical techniques for tracking your family history. Many have found a treasure chest of knowledge when undertaking these courses.

Mr. Pratt has taken the hobby of genealogy and has enhanced it into a science. Heavy on instructions concerning documentation, research procedures, alternative sources and common public records, these courses are valuable tools for the family history researcher. Mr. Pratt has been informed by researchers his material found in his publications are recorded as source validation for such organizations as the Sons of the American Revolution (SAR) and the Daughters of the American Revolution (DAR).

Upon completion of the educational courses from the **Genealogical Institute**, the graduate is awarded the *Master Accreditation* of the *Genealogical Institute*. (*M.A.G.I.*) Written in easy to read format with detailed explanations concerning various subjects of interest to family history researchers.

Mr. Pratt's ability in family history research has amazed many experienced researchers. When Mr. Pratt is asked for help concerning their “brick wall” in their family research, his quick wit and logical mind rapid fires instructions and procedures so fast they cannot write the material quickly enough. Little do they realize, this knowledge has been acquired over 40 years of research.

In June of 2000, Mr. Pratt undertook a new and unprecedeted task. Outside of Washington, Saint John's Township, Franklin County, Missouri is an old cemetery called the Johnson-Caldwell Cemetery aka; misnamed the McAllister Cemetery. This cemetery has many pioneer heroes and ancestors of various descendants from that region. Some of the inhabitants were born in the 1750's and arrived in the Missouri Territory shortly after the 1803 Louisiana Purchase.

Mr. Pratt recorded all the information off of the headstones including every person in the cemetery and researched each individual related to Mr. Pratt or not. 1000 man-hours and two years later, he published the book “**JOHNSON-CALDWELL CEMETERY OF FRANKLIN COUNTY, MISSOURI**”©.

Obtaining newspapers, legal documents, talking to ancestors and researching various sources for any and all information concerning the history of the cemetery and the inhabitants produced this master text.

What makes this book unique is based on several factors. First, it is the only book to report on each inhabitant, their birth and activities throughout their life until their death, including their ancestors, spouses and children. Second, this book contains a unique index, listing the individual and their father's name if known. This is extremely helpful when several individuals have the same given name.

Upon examination, professional researchers have hailed this body of work as a masterpiece and a standard in which all future research should be based. No one has ever produced a body of work as unique and professional as this publication.

As the years moved on, Mr. Pratt became concerned about his 40 years of hard research work of various family histories. After a serious heart attack in 2012, Mr. Pratt decided to post his collective bodies of work on a website making them available to all interested researchers without compensation.

A Little Something About Your Author.....

After careful consideration, Mr. Pratt chose the website www.openlibrary.org. "Open Library" is a repository of millions of digital books available to the public for free.

There are two or more ways to access Mr. Pratt's publications.

If you open the website as listed above you click on the authors label on the left hand side and type Floyd Thomas Pratt F.H.C., M.A.G.I. The website will open to his name, click his name and you will be directed to a listing with his name, picture and listing of presently 79 publications (2015).

You can either scroll the list or an easier way to reach his lists is at the following website...

<https://openlibrary.org/people/floydpratt59/lists>

If you notice there are currently 9 lists or categories of books, article, stories and commentaries attributed to Mr. Pratt's publications.

These "Lists" are broken down as follows not necessarily in any order...

Vital Text Series This section covers public vital records. Including marriage records, deeds, census records, births, deaths, probate and indexes to public records. The counties of Missouri covered are as follows; Crawford, Washington, Franklin, Gasconade, St. François, Ste. Genevieve, and Jefferson counties.

Pratt Archive Collections This Collections comprises of a series of books containing cemeteries, family histories, biographies and various books by individual authors. There are several sections with this group... **Cemeteries** contain documented census information for various cemeteries in Crawford, Washington and Franklin Counties of Missouri. **Family Histories** are a collection of historical books concerning a group of a family or family names.

CRADLE TO GRAVE (C2G) PROFILES The Cradle to Grave Profile (C2G) documents an individual's life from the cradle to the grave. All known research material concerning that individual is represented in a family group sheet format. These C2G profiles are presented to the researcher within a family group sheet detailing the husband, his spouses and all known children. Regardless of how many times the subject has been married, the researcher receives a full report on all known spouses and children.

The Pratt Chronicles... The Pratt Chronicles series or what we call a Cradle to Grave (C2G) profile on steroids, is an in-depth comprehensive biography on one individual's life encompassing all known events, including historical factors from the time of their birth to their burial. These events are comprised of current music, inventions, movies, family births, deaths, marriages, legal documents, occupations, military participation, pictures, maps, mementos, world history, US history and economic conditions as they occurred on a yearly basis.

LITERARY HISTORY SERIES contains rare books concerning family history written by other authors...many who are deceased. These books were bought over the years and now enjoy the status of a rare find in the genealogical library.

VIEW FROM THE MAST... Over the years, Mr. Pratt has found it necessary to write articles concerning observations concerning various family history topics or what we call personal artifacts. These reports, articles and short stories are contained in this section labeled...View From the Mast.

A Little Something About Your Author.....

Having a unique perspective from the top of mast on the sailing ship of discovery, Mr. Pratt has sailed through the waters of family history research for the last 40 years. These articles were designed to bring to the attention of family historians some unusual details he has witnessed during his research tenure.

 **M.A.G.I. Courses** These courses were developed over the years to assist the novice as well as the professional in all manners pertaining to family history research. Written in easy to read format with detailed explanations concerning various subjects of interest to family history researchers.

Pratt Progenitor Papers Series This series is comprised of the famous Pratt Progenitor Papers. Starting with a known ancestor, this collection covers 2 or more generations of descendants. Each volume follows a particular individual and his descendants including children, grandchildren and spouses if known. Each of these volumes include legal and detailed information about a particular ancestor...many contain Cradle to Grave (C2G) Profiles. The order of reporting is as follows: 1st a Descendancy report on the primary, which is usually the husband; 2nd the primary or husband followed by all known wives, then 3rd the second generation comprising of all known children and their spouses, followed by additional subsequent generations of descendants. The PPP are light on speculation and assumptions, heavy on factual documentation offering research insights and suggestions.

ANCESTRAL FAMILY HISTORY OF... This book showcases a selected individual usually a living descendant, detailing their direct line ancestors as far as the research has been completed. This type of format is known as an enhanced pedigree chart. These books contain as many as 10 to 70 generations limited only by the number of ancestors of our primary individual. Whereas, pedigree charts list only the vitals on an individual, these books generate all known notes, articles, legal documents and if applicable, Cradle to Grave (C2G) Profiles on each and every direct line ancestor and their spouses.

When accessing Mr. Pratt's books on Open Library, click on the heading of each list and you will be directed to the books, articles, stories and commentaries contained in each section. Click on the title of the book or article you desire for a full explanation of the item with contents. On the upper right hand column, are the words "Read Online" and PDF. All of these publications have been uploaded to the Internet Archive Digital Library repository and you can access them directly at the following...

If you wish to read online, click the read online link, the book will open and if you wish to download this item click the PDF link in the box on right. We suggest you download, giving you the opportunity to read and study the books, articles, stories and commentaries at your leisure.

We, in the genealogical world are deeply grateful to be associates of a man of Mr. Pratt's caliber. Through his research and dedication, future generations will benefit by his advances in the genealogical research field.

In addition we are thankful for the inspiration that sparks men like Mr. Pratt to magnify their love for people and history. We feel, with a lifetime dedicated to the genealogical pursuit of truth and knowledge, Mr. Pratt's accumulative body of work, will stand as a quintessential manifestation of this divine love.
